## Meeting Notes - DNow

### 10.02.06

#### StudentNet Website

Prince Services came in to explain to us what they could do for the StudentNet website...as far as design and hosting. If we went with an “open-source” design, then the estimated cost for the initial setup would be around \$650. The hosting cost for each year would be around \$325 (cheaper with quarterly or annual billing).

It was decided that Jeff and Gabe would look for an “open-source” template on our own (around \$60), and find a hosting site on our own. This should bring the cost down significantly.

#### Media Day

We are looking at bringing Prince Services in to teach us how to design and manage websites for our next media day. If they are able to come, we will have our media day on December 4.

#### Vision Discussion

At our November meeting, we will take some time to discuss everyone’s vision for “discipleship”. Please come prepared to discuss what you are doing (or believe should be done) about large group, small group, and 1-on-1 discipleship.
